

What I Need to Know

- The location, countries and main physical and human features of the continent of North America
- The location and main physical and human features of the state of Florida
- Why the Magic Kingdom theme park in Florida is such a popular destination for tourists
- What a peninsula is and the location of the largest peninsulas in the world
- Why the Kennedy Space Centre is located on the east coast of Florida
- How the weather and climate of Florida compares with that of the United Kingdom
- Why the climate of Florida attracts British tourists

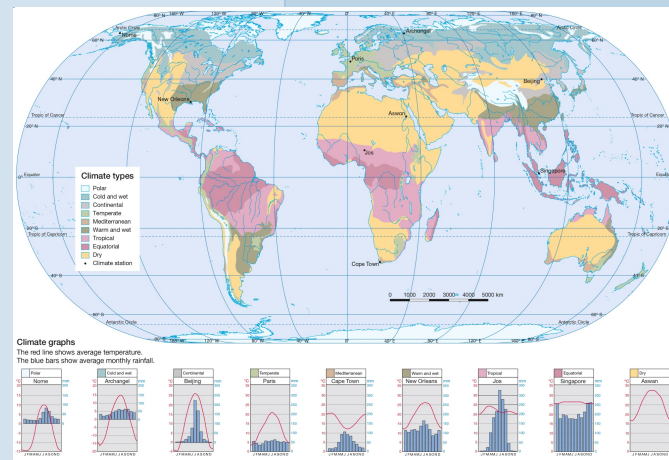

What Skills I Need to Learn

- To locate countries in Europe
- To recognise physical and human features of a range of environments
- To use the words continent, country, state, and city correctly to describe the scale of a location
- To find out about places and the features of those places by either going to that place or looking at information sources
- To use sentences, pictures, bar charts, Venn diagrams, pictograms, and tables to help me describe places
- To develop the understanding of key concepts such as climate, economic activity, environmental management, government influence and sustainability and make judgements about the interaction between people and the environment, e.g., through the study of leisure and tourism

Key Vocabulary and Phrases

Continents	Any of the world's main continuous expanses of land (Europe, Asia, Africa, North and South America, Australia, Antarctica)
Tourism	Visiting places that involves staying away from home for one or more nights
Peninsula	A narrow piece of land jutting out into the sea and almost surrounded by water
Habitat	The natural home of living things such as plants or animals
Climate	The average weather conditions of a place over a long period of time
Temperate	Places where the weather is mostly mild and damp
United States of America	The United States of America (USA), commonly known as the United States (U.S.) or America, is a country primarily located in North America
Florida	A state in the southeastern United States between the Atlantic Ocean and the Gulf of Mexico
Conservation	The protection of environments to prevent their loss or destruction
